

KEN AREND

Endpoint Support & IT Operations | Windows/macOS | Intune | Jamf | AD/Entra ID | PowerShell
Phoenix, AZ | arend.ken@gmail.com | 623-707-9475

SUMMARY

Technical operations and endpoint support professional with 10+ years of experience supporting Windows, macOS, Microsoft Intune, Jamf Pro, Active Directory/Entra ID, endpoint provisioning, OS lifecycle support, and onsite users in regulated, multi-site environments. Current work includes supporting DOI Windows migration efforts into Intune, contributing to PowerShell-based migration tooling, troubleshooting user/device issues, validating endpoint readiness, and documenting repeatable support processes.

EXPERIENCE

ITOSS Desktop Support Technical Lead

Koniag Government Services (Contractor) – Bureau of Land Management

02/2025 – Present | Phoenix, AZ

- Serve as an escalation point for complex Windows and macOS endpoint, access, application, and configuration issues affecting bureau-wide users.
 - Support DOI Windows endpoint migration efforts to Microsoft Intune by validating device readiness, troubleshooting migration blockers, coordinating user-impact issues, and improving repeatable PC modernization processes.
 - Help develop, test, and refine PowerShell-based tooling for Intune migration support, including user data backup preparation, readiness checks, troubleshooting, and validation.
 - Troubleshoot Windows endpoint issues using Event Viewer, Device Manager, Windows Update history, endpoint management data, remote support platforms, application logs, network connectivity testing, and documented remediation workflows.
 - Lead recurring operational reviews and monthly reporting focused on endpoint readiness, lifecycle risk, ticket trends, remediation priorities, and support team performance.
 - Train and support two junior team members through recurring one-on-ones, ticket guidance, process coaching, and escalation support.
 - Coordinate technical coverage for executive briefings, training events, classroom operations, and onsite user-impacting issues.
-

ITOSS macOS Desktop Support Specialist / Endpoint Support Specialist

Koniag Government Services (Contractor) – Bureau of Land Management

01/2023 – Present | Phoenix, AZ

- Support bureau-wide endpoint operations in a regulated federal environment, including provisioning, configuration, troubleshooting, OS lifecycle support, and application support across macOS and Windows users.
- Supported bureau-wide macOS migration from Jamf to Microsoft Intune, including Apple Business Manager enrollment redirection for automated provisioning.
- Tested and validated Intune configuration profiles in collaboration with systems engineering stakeholders.
- Reconfigured and helped deploy an internal DNS remediation script bureau-wide through Intune to address endpoint name resolution issues.
- Modernized Adobe Creative Cloud deployment using Active Directory group mappings, enabling self-service installs via Company Portal.

- Assisted with macOSLAPS rollout and partnered with IT Security and Configuration Management on endpoint security initiatives.
 - Maintained a risk register covering migration status, encryption posture, OS lifecycle, application delivery risks, and endpoint remediation needs.
 - Contributed to federal property asset tracking processes and authored SOPs and knowledge base documentation for endpoint deployment, configuration, troubleshooting, and support workflows.
-

Multi-Platform Technical Support Specialist (On-Call)

Apex IT Consulting, LLC

11/2016 – 01/2023 | Scottsdale, AZ

- Administered Jamf, Hexnode, Mosyle, and dattoRMM across 200+ Windows, macOS, and iOS endpoints spanning seven campuses.
 - Resolved hardware, software, access, connectivity, and device-management issues in multi-site environments.
 - Managed Active Directory user provisioning, access control, group membership, and support workflows.
 - Handled onboarding and offboarding workflows, including Google Workspace administration, Microsoft 365 account creation, access provisioning, and account lifecycle updates.
 - Deployed configuration profiles, scripts, and enterprise applications across distributed environments.
 - Maintained VPN connectivity and supported endpoint security tooling and remote access platforms.
 - Diagnosed endpoint and network issues using Meraki Dashboard and remote monitoring platforms.
 - Coordinated wireless refresh efforts including access point replacement, vendor communication, site walkthroughs, and cabling-related work.
 - Managed endpoint, peripheral, and related inventory, including asset tracking, purchasing, and operational readiness.
 - Participated in an after-hours rotation supporting critical endpoint and connectivity incidents.
-

SKILLS

Endpoint & Device Management: Microsoft Intune | Company Portal | Jamf Pro | Apple Business Manager | Microsoft Defender for Endpoint | MECM | Mosyle | Hexnode | dattoRMM | Endpoint Provisioning | Device Readiness Validation

Windows & macOS Support: Windows 10/11 | macOS | iOS | OS Lifecycle Support | Windows Endpoint Migration Support | PC Fleet Modernization Support | Hardware Troubleshooting | Software Troubleshooting | Peripheral Support | Onsite User Support

Identity, Access & Administration: Active Directory | Entra ID / Azure AD | Microsoft 365 Account Provisioning | Google Workspace Administration | User Onboarding / Offboarding | Access Lifecycle Support | Group Membership | Smartcard/PIV | Conditional Access

Scripting, Automation & Migration Support: PowerShell Automation Support | Intune Migration Workflow Support | User Data Backup Preparation | OneDrive Workflow Support | Migration Readiness Checks | Troubleshooting Documentation | Script Testing

Networking & Connectivity: TCP/IP | DNS | DHCP | VPN Troubleshooting | Cisco Meraki | Ivanti Secure Access | Wireless Access Point Support | Cabling Coordination

Documentation & IT Operations: SOP Authoring | Knowledge Base Documentation | Ticket Triage | Ticket Resolution | Asset Tracking | Federal Property Asset Tracking | Vendor Coordination | Change Coordination | Risk Register Ownership | Stakeholder Communication
